

Scan your way to success

Customized bar code solutions that can help your business run smoothly and more efficiently.

The right bar code solution can really make a difference in your business. And QSS can help. We provide a cost-effective, customized solution that is easy-to-use and can grow right along with your business. Our efficient solution can help your business:

- Reduce operation costs
- Streamline operations
- Improve transaction accuracy
- Simplify and standardize business rules and processes
- Automate customer packaging and labeling requirements

Your EDI solution starts with WaveLink™. QSS has been a VAR for WaveLink since 1993. The close working relationship between WaveLink and QSS has resulted in many satisfied EDI customers over the years.

Our bar code solutions can help you with:

- Labor collection
- Time and attendance
- Shipping
- Receiving
- Material transfers
- Work orders
- Material movements
- Shop floor movements
- Warehouse transfers

See what QSS can do for your business. You'll be amazed at how we can help your organization run smoothly and more efficiently.

QSS is the one that makes your business the center of attention.

Finally, a company that designs customized solutions around YOU...your organization, your needs, your way of doing business. That company is QSS.
